#### PREFACE

This report is one in a series on Soviet Ground Force and logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the NPIC Photographic Analysis Group.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training area or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

25X1D 25X1D SUMMARY 25X1D 25X1D 25X1D 25X1D

The Volkovysk Army Barracks is located in the western section of Volkovysk (53-09N 024-26E) at the junction of the Slonim-Bialystok and Lida-Volkovysk rail lines (Figure 1). This installation is served by a rail spur from the Slonim-Bialystok rail line. An all-weather road provides access to the Slonim-Bialystok highway.

The installation (Figures 2 and 3) covers approximately 584 acres and contains three administrative buildings, one administrative-type building, 17 barracks, four vehicle maintenance/storage buildings, 38 storage buildings, 40 dependent/officer quarters, 55 support buildings, an assembly area for vehicles, a small arms firing range, a flat trajectory firing range, two wheeled-vehicle driver training courses, an unidentified facility, and an open area used for tracked-vehicle driver training.

The area is covered by [REDACTED] TALENT photo-

DESCRIPTION OF INSTALLATION

25X1D 25X1D

Railroad Service

Area A (Figure 3) contains one 80-foot trackside dock. A small rail spur serves the eastern section of this installation. The Slonim-Bialystok and Lida-Volkovysk rail lines serve Volkovysk.

Road Service

An all-weather road provides access to the Slonim-Bialystok highway.

Administrative and Troop Housing Areas

Area D1 contains one administrative building and four barracks. Two barracks were first observed on [REDACTED] coverage.

tography and 11 KEYHOLE missions between [REDACTED] A comparative analysis revealed an increase in activity between [REDACTED] The activity observed between [REDACTED] remained at the same general level during the summer months with a decrease in activity during the winter months.

The significant changes noted between [REDACTED] include the addition of one administrative-type building, six barracks, two vehicle maintenance buildings, 33 support buildings, 13 storage buildings, the flat trajectory firing range, the assembly area for vehicles, the unidentified facility, two wheeled-vehicle driver training courses, and 40 dependent/officer quarters. In [REDACTED] the area where 30 dependent/officer quarters are now located (Area H) was used as a wheeled-vehicle, closed-circuit, driver training course.

25X1D

Area D2 contains three barracks, three storage buildings, five support buildings, and seven dependent/officer quarters. The dependent/officer quarters and storage buildings were first observed on [REDACTED] coverage.

Area D3 contains one large multistory administrative, two barracks and 10 support buildings. The support buildings were first observed on [REDACTED] coverage.

Area D4 contains four barracks, six storage and nine support buildings. Two support buildings and two barracks were first observed on [REDACTED] coverage.

Area D5 contains one administrative, two multistory barracks, four storage and four support buildings. The support buildings were first observed on [REDACTED] coverage.

25X1D 25X1D

25X1D

Area D6 contains one administrative-type and two support buildings. These buildings were first observed on [REDACTED] coverage.

Area D7 contains two barracks, two storage buildings, three support buildings, and three dependent/officer quarters, all of which were first observed on [REDACTED] coverage.

25X1D

25X1D

25X1D

#### General Storage Areas

Area E1 contains seven storage and eight support buildings. Three storage buildings were first observed on [REDACTED] coverage.

Area E2 contains three storage buildings and is a separately secured area. These buildings were first observed on [REDACTED] coverage.

Area E3 contains five storage buildings.

Area E4 contains eight storage and four support buildings. Two storage and two support buildings were first observed on [REDACTED] coverage.

25X1D

Other Buildings

25X1D

Area H contains 30 dependent/officer quarters which were first observed on [REDACTED] coverage.

#### Equipment Storage/Maintenance Areas

Area J1 contains four vehicle maintenance buildings, measuring 320 by 70 feet, (two); 300 by 75 feet, (one); and 240 by 65 feet, (one); and four support buildings. Two vehicle maintenance

buildings and the support buildings were first observed on [REDACTED] coverage.

Area J2 is an assembly area measuring 1,075 by 235 feet and is probably used as an assembly point for vehicles for the training area.

#### Small Arms Firing Range

Area L is 325 by 60 feet and appears to be active.

#### Driver Training Areas 25X1D

In Area M1, an irregularly shaped, closed-circuit course and a figure-8 course, both used by wheeled vehicles, and two support buildings were first observed on [REDACTED] coverage. The course appears actively utilized.

In Area M2, random tracking indicates a probable tracked-vehicle driver training area.

#### Flat Trajectory Firing Range

Area P, 3,120 feet in length, has two firing lanes, 590 feet and 1,100 feet respectively, against moving targets. The facility appears to be used for trucks mounted with automatic weapons. The range and two support buildings in the area were first observed on [REDACTED] coverage.

#### Unidentified Facility

In Area T, a rectangular-shaped road pattern and two support buildings were first observed on [REDACTED] coverage.
